

The choice is yours! (2026)

If you currently use your computer for online purchases or banking, please seriously consider accepting some level of protection:

MANAGED Antivirus (\$11/month) If you get a virus on your computer, we instantly get an alert and assure the computer is properly cleaned.

- **Enterprise-grade antivirus protection that we fully manage for you**
- Initial stabilization fee \$180 unless PC is new out-of-the-box

Cyber Security (\$21/month) will proactively monitor and alert on security issues.

- Enterprise-grade antivirus protection that we fully manage for you..
- **Managed Zero Trust environment**
- **24/7 system-wide monitors that identify but WILL NOT address. Helpful when called up for repair.**
- Initial stabilization at 50% discount (\$90) unless PC is new out-of-the-box

Security & Stability (36/month) is a proactive approach using Enterprise-Grade Security, Remote Monitoring/Management and Frequent Tuneups

- Enterprise-grade antivirus protection that we fully manage for you.
- **24/7 system-wide monitors that find and repair issues before you are even aware of a problem. Alerts are automatically sent to our techs any time a problem is not immediately resolved.**
- **Perpetual Maintenance completed as soon as our monitors alert to a need.**
- Initial stabilization fee waived for a 1 Year Commitment (\$180 value)

Subscribe to our Managed Services for three months. If you are not satisfied, we will refund the service plan fees.

Protection is just a phone call away!
